## „Painting meets Photography“

Videor Art Foundation presents the works of young artists from the „Oswald-von-Nell-Breuning Europe school“ in Rödermark

**Rödermark, in August 2010.** The Videor Art Foundation opens the exhibition „Painting meets Photography“ on September 17, 2010 at 6:30 pm.

In cooperation with the „Oswald-von-Nell-Breuning“ Europe school in Rödermark, the Videor Art Foundation presents selected works from ten young artists of the sixth grade.

From the desire for advancing young talents of a regional school, an exciting art project has been evolved. It is under the patronage of Roland Kern, mayor of the city Rödermark. The project was looked after from Hanna Hüttner, head of art at the Nell-Breuning School.

„Painting meets Photography“ is an interplay of photography subtly worked on the computer and manual, pictorial finishing. Classical motives are thereby alienated, modified and implicated in a new combination. An interesting variety of works with all kind of genres came into being.

At the vernissage the keyboard ensemble „Key Hunters“ (5 pupil) of the music school Rödermark ([www.musikschule-roedermark.de](http://www.musikschule-roedermark.de)) are performing live under the guidance of Ralf Merten. They play orchestral film music from current Blockbusters.

Attendants can visit the exhibition from September 20, 2010 until January 31, 2011 from 09.00 a.m. to 5.30 p.m. Monday to Thursday and 09.00 a.m. to 5.00 p.m. on Fridays.

### Videor Art Foundation

The Videor Art Foundation has been collecting experimental media art since 1996 and is based in the ComCenter of the Rödermark trading firm Videor E. Hartig GmbH. The offerer of professional video technology views the promotion of art as a vital part of its corporate culture and promotes mainly still unknown artists. It is the foundation's goal to integrate art into the working environment and to give employees as well as visitors the opportunity to deal with contemporary media art. At present, the collection comprises about 300 exhibits that have been created with a computer or as mixed media. The activities of the Videor Art Foundation include exhibitions, competitions and the cooperation with media schools, museums and galleries.
